

Ideation Phase

Empathize & Discover

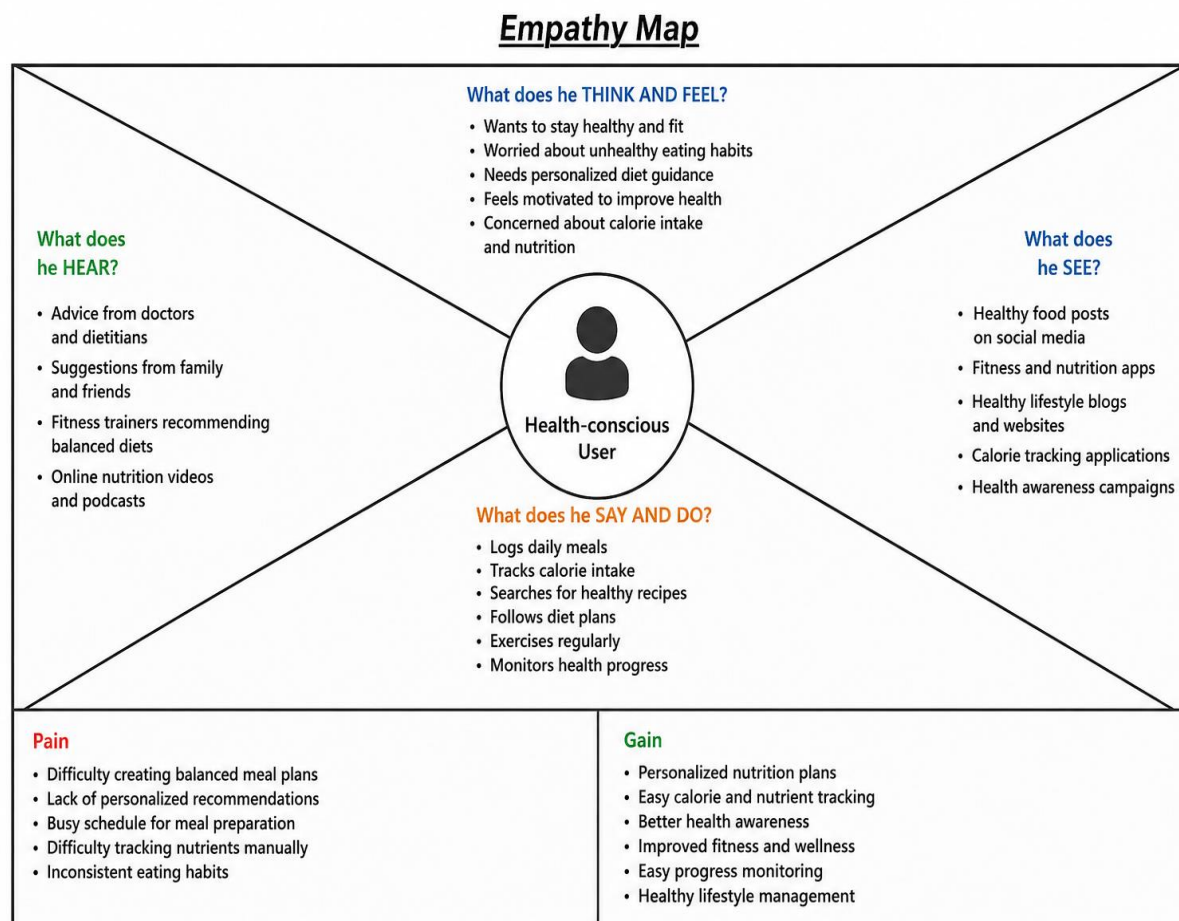

Date	7 July 2026
Team ID	SWUID2026196344
Project Name	Nutrition Assistant
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a visual tool used to understand users' needs, behaviors, thoughts, and emotions. It helps the project team identify the real challenges faced by users and design solutions that meet their expectations.

For the **Nutrition Assistant** project, the empathy map focuses on individuals who want to maintain a healthy lifestyle but face difficulties in planning meals, tracking nutrition, and following personalized diet plans. Understanding their experiences helps build a user-friendly and effective nutrition management system.

Example:

Empathy Map – Nutrition Assistant (Personalized Nutrition & Meal Management System)
