

Project Design Phase
Proposed Solution Template

Date	07/07/2026
Team ID	SWUID2026196344
Project Name	Nutrition Assistant
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Many people struggle to maintain a balanced diet and monitor their nutrition. The lack of personalized guidance affects their overall health.
2.	Idea / Solution description	Nutrition Assistant is a MERN-based web application for personalized meal planning and nutrition tracking. It helps users monitor their health and diet effectively.
3.	Novelty / Uniqueness	The application integrates meal planning, nutrition tracking, and dietitian support in one platform. It provides role-based access for users, dietitians, and administrators.
4.	Social Impact / Customer Satisfaction	The system promotes healthier eating habits and better lifestyle management. It improves user satisfaction through personalized nutrition support.
5.	Business Model (Revenue Model)	The platform follows a Premium model with optional premium subscriptions. Revenue can also be generated through dietitian consultation services.
6.	Scalability of the Solution	The MERN architecture allows the application to support more users as demand grows. New features and services can be added easily in the future.
